Product Change Notification
FM series: Removal of VDE Approval

To whom it may concern,

Due to latest change on VDE certification, APEM has decided to remove the VDE approval on our FM range. This approval was limited to function 1 and 6, so other functions are not impacted. UL approval will be maintained and product utilization at 250VAC is still possible.

All products manufacture after the 1st January 2021 will not have the VDE approval. If you have any questions please contact your APEM Salesperson.

Regards,
Ryan Chiarelli
Product Manager – Switches & Indicators
