Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Description for Product Discontinuation

The QPD 2.5mm², 4-pole (3+PE) products are being discontinued and replaced by a new design with improved functionality. The rest of the QPD line was created with these improvements already integrated, and so we are now bringing the 4-pole up to the same performance standards. The new design will not be backwards compatible, but it was necessary in order to create a uniform product offering.

Stock Status

Can existing stock still be used? Yes

Is mixture of stock acceptable? No
