January 20th, 2017

## **End of Life (EOL) Notification**

To our valued partner Digi-Key,

SAMSUNG ELECTRONICS Co. Ltd(SEC) is notifying you of the EOL (End of Life) of the product ARTIK1020 Kit and Module:

ARTIK 1020 Kit: SIP-KITNXC001

ARTIK 1020 Module: SIP-010AYS001

For customers who are looking for a migration path for the ARTIK 1020, we would recommend that they evaluate the ARTIK 710. At the Korea Electronics Show in October 2016 we introduced the ARTIK710 product which provides comparable performance at a fraction of the cost and is a replacement product for volume production. The ARTIK 710 is supported with a 5 year lifetime guarantee that should meet your customer's needs for lifetime and availability.

We would like Digi-Key to be able to sell the remaining inventory of 1020 kits and modules that you have in stock and we are extending the EOL Return Privilege window from the 60 days in the contract (clause 10.3) to 180 days. We will revisit in 60 days the progress with you and can decide on a clearance sale if needed to deplete the inventory before the 180 days.

Please note that Technical Support for ARTIK1020 kit and module will continue to be available until Sep 31, 2017.

The important EOL dates for ARTIK1020 Kit and module are:

- Technical Support End: Sep 31, 2017
- EOL Return Privilege extended from 60 days to 180 days
- ARTIK1020 kit and module production terminated immediately

We apologize for any inconvenience this may cause you.  
Thank you.

Sincerely,

**Eric Dewannain**
