

End of Life (EOL) Notice

July 11th 2019

To our Valued Customers:

Supply chain complexities for Laird's **TiWi-C-W** product family has impacted the future ability to manufacture this product family. Laird is committed to long term supply and support of our industrial modules portfolio and is offering a LTB (Last Time Buy) opportunity as detailed below. Unfortunately, Laird was not provided a reasonable LTB window and the limited window is fast approaching. Therefore, urgency is required in LTB decision making.

Part numbers affected:

- **450-0118C**: Module, TiWi-C-W, Cut Tape
- **450-0118R**: Module, TiWi-C-W, Tape / Reel
- **450-0143**: Development Kit, TiWi-C-W
- **450-0164**: Development Kit, TiWi-C-W

Laird is pleased to offer a last-time buy opportunity to customers for the part numbers referenced above. The last time buy (LTB) purchase orders must be placed by **September 13th, 2019** unless purchasing through distribution partners. Customers ordering through Laird's distribution partners must place LTB orders by **August 30th, 2019**. Last time buy purchase orders are non-cancellable, non-returnable (NCNR) and all units must be shipped from Laird by **September 13th, 2020**.

For customers considering upgrading from TiWi-C-W to newer silicon; Laird has recently released the Sterling-EWB which leverages newer silicon and the WICED SDK. For more information on the Sterling-EWB, please visit our [website](#) or contact your normal sales representative.

We apologize for any inconvenience that this may cause and also for the limited notice period – this was outside of Laird's control. If you have any questions, please call your normal sales representative or one of our regional contact numbers below.

Sincerely,

Jonathan Kaye
Senior Direct, Product Management
