

Product Change Notice		Date: August 1, 2018
Product	Xbee-PRO Zigbee Wall Router, US Power Plug and Xbee-PRO Zigbee Wall Router, EU Power Plug	
Notice Number	180801-001	

Reason for Notification: The Xbee Wall Routers have been updated to firmware version 2BA7. The wall routers have also added the functionality of interchangeable power plugs for different geographical regions.

Audience	All Digi Wall Routers Distributors
-----------------	------------------------------------

Product Notice	<p>The Xbee Wall Routers have been updated to firmware 2BA7 to support up to 20 end nodes.</p> <p>To update your module, use XCTU to look for and install the new firmware. For more detailed instructions on updating your firmware please visit the following link: http://docs.digi.com/display/XCTU/How-to:+Update+the+firmware+of+your+modules</p> <p>Also, due to recent obsolesces of international versions of the Xbee Wall Router (PCN# 180212-01 on February 12, 2018), the Router was updated to include interchangeable power plugs which allow the Routers to be used in multiple geographic regions.</p> <p>Specifically, the US version of the Xbee Wall Router (PN XR-Z14-CW1P1) will include plugs for the US as well as Australia. Therefore, the XR-Z14-CW1P1 Router can be sold and used in both the US as well as Australia.</p> <p>Similarly, the EU version of the Xbee Wall Router (PN XR-Z14-CW1P2) will include plugs for the EU as well as Japan and the UK. Therefore, the XR-Z14-CW1P2 Router can be sold and used in the EU, Japan, and the UK.</p>
