

## MICRON\_Shipping Tray Supplier Addition and Design Change for Select DDR4 Modules

PCN: 33965

Published: 2021-04-05

### Revision History:

**RETRACTION, 2021-07-01:** Micron is retracting PCN 33965 dated 2021-04-05.

During fanout of the above referenced change to various manufacturing facilities and while evaluating its use with additional product types, Micron determined that further improvements to the tray design were warranted in order to provide the best possible customer experience. To this end Micron has decided to make adjustments to the tray dimensions. Micron will also create a new tray part number for better traceability of this change within Micron manufacturing systems and at customer sites.

These latest adjustments impact the release schedule communicated in this PCN. To ensure continuity of supply to our customers, Micron has decided to retract PCN 33965 and issue a new PCN at a later date.

Please contact your Micron account representative if you have further questions regarding this notification.

<b>Type:</b>	Additional Source/Supplier, Material Change - Shipping Media
<b>Description:</b>	<p>In an effort of continuous improvement, Micron will be changing the tray material and will add an additional supplier. The material change will help to reduce particles dropping from the tray.</p> <p><b>Was:</b> Shipping Tray Material - Polystyrene (PS) is from supplier Prent with thickness of 1.7mm;</p> <p><b>Is:</b> Shipping Tray Material - Polyethylene terephthalate (APET) is from suppliers MeiHua and Prent with thickness of 1.4mm</p> <p>Please reference the attached document for further details</p>
<b>Anticipated Impact:</b>	Reduced particles dropping from the shipping tray
<b>Reason:</b>	Additional Source/Supplier, Improved Product Quality and Reliability
<b>Product Affected:</b>	DDR4 Modules listed below
