Monnit will not accept any more orders with those part numbers on them. If you have these part numbers in inventory, there is no need to send back to Monnit - they are still good and will work with the Monnit ALTA sensor line. The reason for EOL is that one of our part suppliers ended the microprocessor and are requiring us to move to their new one.

As we ramp up production on these units you may experience a week longer delay in delivery times than normal. Please be patient. If you already have orders with us in process, we will reach out to you and request a change to the purchase order for the new parts.

A new price list with the appropriate UPC codes, descriptions, pricing, and product links will be forthcoming today.

If you have any questions, please contact me directly at [nickm@monnit.com](mailto:nickm@monnit.com).

Thank you,

Nick Mecham
