| Replacement Product

No
Form Feature Function
replacement. | The following products may be considered:

Digi cable

| ELF-TSM-CBL-16 | Etherlite (F) to TS (M) RJ45 Cable adapter, package of 16 |

Can be used to connect existing EtherLite RS232 cabling
to ConnectPort TS or LTS products

| 70002388 | ConnectPort TS 8 Dom |
70002389	ConnectPort TS 8 Int'l | High Level Comparisons: • The ConnectPort TS family is a different hardware and firmware architecture from EtherLite. • Etherlite 80 products have different dimensions and pinouts compared ConnectPort TS 8. • The configuration mechanisms for the products are different. • **The products do use the same RealPort Driver**. • With the cable adapter existing deployments could re-use existing cabling.

Last Time Buy Part Issues	There are multiple LTB components.

Quality Issues	None
