

DISCONTINUED: HS5E series
of interlock switches with solenoid

REPLACEMENT: HS5L series
of interlock switches with solenoid

Effective immediately, all HS5E series interlock switches will be discontinued.

HS5L interlock switches with solenoid make a great replacement for customers using HS5E. Inventory is limited, so orders for HS5E will be accepted on a first come first serve. Suggested replacements for the HS5E series is the new HS5L series of interlock switches. HS5L switches are designed with 2 or 4 contacts, and as a result, the overall size is reduced for more flexibility in installation. Additional features include:

- Compact body: 35 x 40 x 127mm
- 1400N locking force
- Spring or Solenoid Lock type
- Spring clamp terminals
