DESCRIPTION AND PURPOSE OF CHANGE:

To optimize the assembly process, the diameter of the drill hole in the land pattern recommendation will be increased.

There will be no change in form, fit, function, quality or reliability of the product.

DETAIL OF CHANGE:

Land pattern recommendation will be changed as following:

Recommended Land Pattern (Dimensions in mm)		
Size	Before Change	After Change
1014 1016 1018		

RELIABILITY / QUALIFICATION SUMMARY:

Product approval is according to the specification and is internally released by the Product Management Department.

New land pattern recommendation has been tested according to internal Qualification Test:
- 5g Vibration (MIL-STD-202 Method 204)

DATA SHEET CHANGE:

Yes
