Product Discontinuation Announcement - Hirschmann MACH4002 Product Family

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing the **Hirschmann MACH4002 product family** after more than 15 successful years on the market.

In 2018 Belden has launched the new DRAGON MACH4x00 family. These powerful Layer 3 switches enable customers to build flexible, redundant and secure backbone networks with a high bandwidth for connecting OT and IT networks. The recently launched DRAGON PoE line card and the new full Gigabit chassis are completing the DRAGON MACH4x00 offering so that the MACH4002 family can now be completely replaced.

Around the globe, MACH4002 systems are installed in mission-critical applications where they have been playing a key role. Belden is aware of this fact and therefore offering its customers an extended transition period of two years to upgrade to the DRAGON MACH4x00 successor family. Final orders can only be accepted on or before the last order date and are subject to the availability.

Discontinued Products

Last Order Date: March 31, 2023

Discontinued Products	Description	Suggested Alternative	Description
943916101	MACH4002-24G-L2P	942287999	GRS105 family
