December 21, 2016

Hello,

This email is to notify you of a production stop effective today for the low current ratings of the FST series fuses. This ONLY affects the low current ratings on specific FST fuses.

Specifically:

- 20mA - 40mA versions of FST 5x20mm fuses
- 20mA – 200mA versions of FST 6.3x32mm fuses

Please see list of part numbers below (Figure 1).

| Part Number | Description             |
|-------------|-------------------------|
| 0034.3101   | FST 5X20 FUSE 20mA T    |
| 0034.3102   | FST 5X20 FUSE 32mA T    |
| 0034.3103   | FST 5X20 FUSE 40mA T    |
| 0034.3401   | FST 6.3X32 FUSE 20mA T  |
| 0034.3402   | FST 6.3X32 FUSE 32mA T  |
| 0034.3403   | FST 6.3X32 FUSE 40mA T  |
| 0034.3404   | FST 6.3X32 FUSE 50mA T  |
| 0034.3405   | FST 6.3X32 FUSE 63mA T  |
| 0034.3406   | FST 6.3X32 FUSE 80mA T  |
| 0034.3407   | FST 6.3X32 FUSE 100mA T |
| 0034.3408   | FST 6.3X32 FUSE 125mA T |
| 0034.3409   | FST 6.3X32 FUSE 160mA T |
| 0034.3410   | FST 6.3X32 FUSE 200mA T |

Fig. 1

The remainder of the FST 5x20mm and FST 6.3x32mm current ratings will continue to be in production and will not be affected.

There is no last time buy.

One possible alternate is our FST 6.3x32mm (UL) series which has current ratings as low as 63mA. Please refer to the datasheet linked below.

[FST 6.3x32mm \(UL\) Datasheet](#)

For your convenience, attached is an Excel spreadsheet with the complete list of part numbers impacted by this change.

Also for your convenience, attached is a list of customers and the part numbers and quantities they have purchased from you since 2014.

For any technical questions about these changes, please contact Nikila Kareesan at [nkareesan@schurterinc.com](mailto:nkareesan@schurterinc.com) or by phone at [\(707\) 636-5497](tel:707-636-5497).

For all other questions, feel free to contact me at [gbabb@schurterinc.com](mailto:gbabb@schurterinc.com) or by phone at [707-636-3004](tel:707-636-3004).

Best regards,

Gisela Babb  
Quality Manager
