

PCN - 11 110

Issue Date: October 20 2011

Product Name:	Millipacs Headers			
	HM2P.. series (Vertical Headers) and HM2J.. (Right Angle Headers).			
Product Manager:	Hiju Varghese			
Subject:	Process Change Notification			
Distribution:	General Distribution			
Type of Change:	Manufacturing Process Change			
Change Description:	FCI is providing gold flash plating over coat on Milipacs headers from the tip of contacts to whole of the visible area above the housing. We propose to provide the precious metal plating level on header contacts from the tip to the mating level.			
Reason for Change:	Precious metal plating is needed only up to the mating length in header contact. Precious metal plating beyond the mating level can be controlled in the process. This change will not have any impact to the product's fit and function. There will be no change to the product drawing.			
Affected Parts:	Attached list			
Effective Date of Change:	November	01	2011
