

## MT15-CSSWS-AN

Ruland Set Screw Swivel Clamp Joint With Stud, Swivel Thru Hole 6.5mm, Stud Diameter 15mm, Stud Length 21mm, L 67mm, Black Anodized Aluminum

### Description

Ruland MT15-CSSWS-AN is a swivel clamp joint with stud with 15mm stud diameter, 21mm stud length, M6 set screw, 12.5mm base height, 25mm width and height, and 46mm overall length. It is designed to fit with MT15:16 swivel clamp bases, MT15 clamp connectors and mounting blocks, and MT15 round tubes. When combined with a swivel bases or attachment clamp joints, it is an ideal articulating mounting solution for screens, sensors, reflectors, plexiglass machine guards, and other components that require frequent adjustments. The stud allows for a more compact installation than other connectors which require the use of a second tube that is significantly longer than the stud. An MT15:16:20-ALK-M6-25 adjustable clamping handle can be used to join it to other Ruland swivel components for rapid repositioning without the use of tools. This part is aluminum with a black anodized finish for added corrosion resistance when compared to unplated types. MT15-CSSWS-AN is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
