New Global D4 Miniature Snap-Action Switch to Replace U.S. Version

Product Change Notice (PCN): New Global D4 Series

As a follow up, we would like to remind you that we will be ending production of our U.S. version D4 miniature snap-action switches. These switches will be replaced with our new Global D4 miniature snap-action switches that are halogen free (T85 versions), comply with the new UL61058 certification standards and are constructed with an upgraded housing material. This PCN lists all part numbers being obsoleted. These part numbers will correspond with the cross list that was sent out last week. Again, standard items will be crossed, and specials will say "consult factory". Please work with your local rep, regional sales manager and the CHERRY support team to cross EOL products.

Purchase orders for the products listed below will be accepted until 12/31/13 with a ship date no later than 7/1/2014. Please note that all last time buys will be non-cancellable and non-returnable (NCNR). Part numbers highlighted in yellow are not eligible for last time buy or returns.

This change will ONLY affect the following U.S. Version D4 Part Numbers:
