**DESCRIPTION OF CHANGE: (Required)**

Panduit is making a slight tweak to the strain relief collar of our NK6APC series NetKey Copper Category 6A patchcords. The new strain relief collar provides an improved strain relief and a more seamless transition between the plug and boot. This will be a running change since there is no significant difference to fit or function of the patchcords, and the difference in form is nearly imperceptible. This also means that we will not change the part number at all, so this is more just an informative PCN. Please note that this change does not affect the NKU6APC series patchcords for our Asia Pacific market.
