

PRODUCT ADVISORY NOTICE

KEEPING YOU INFORMED OF PRODUCT CHANGES

To: All 90 Series DIP Switch Customers, Sales Representatives and Distributors

Date: January 15, 2010

Subject: 90 Series Base and Cover Plastic Material Change

This Product Advisory Notice is to alert you that there is a coming change to a series of Grayhill DIP switches and our records show your company has purchased one or more of the affected part numbers in the past. Please forward this notification to the appropriate person(s) in your organization.

Description of the Change

The thermoplastic material that is used in the base and cover piece parts are changing from 33% glass filled polyphthalamide (PPA) to 30% glass filled polyamide (PA46).

Reason for Change

Solvay Polymers, the manufacturer of PPA, has obsoleted the material. The PA46 material is also rated for higher temperature processing.

Effective Date

All four position 90 Series DIP switches manufactured after February 8, 2010 (date code 1006 or later) may be built with either PPA or PA46. The rest of the 90 Series family will be converted in the next 60 days.

Part Numbers Affected

The table below lists the Grayhill part numbers included in the change notice:

90B04SLT	90HBW04PRT	90YY3044SR	90YY3204S
90B04ST	90HBW04PT	90YY3064SR	90YY3204SGWR
90HBJ04PRT	90HBW04RT	90YY3094SGW	
90HBJ04PT	90HBW04T	90YY3094SGWR	

The initial test reports are complete and available on <http://www.grayhill.com/about/PAN.aspx>. As additional tests are completed, the report will be updated.

Samples of four position 90 series DIP switches with PA46 are available upon request.

Please contact your Grayhill, Inc. sales associate for further information.
