

## ■ Advantages

Socket contacts for high vibration and temperature environment.

- 4 tines construction to enhance contact resistance stability.
- The girdle to secure the movement of the pin contact during vibration.

## ■ Technical characteristics

Contacts rated 260° C max.	: For use in EN2997 and MIL-C-83723 connectors when the connector is able to withstand this temperature. Today, this contact is the new standard for Rolls-Royce : ESC34.
Contacts rated 200° C max.	: For use in MIL-DTL-38999 connectors. These contacts are QPL qualified M39029/56-351, -352 and -353.
Socket contacts	: Available for size 20, 16 and 12
Contacts P/N for EN2997 and 83723 connectors	: 097-0234-20 097-0234-16 097-0234-12
Contacts P/N for 38999 connectors	: 097-0236-20 097-0236-16 097-0236-12
