

Product End Of Life Notification		Date December 2, 2019
Product	XBee USB Adapter ZB Pro	

Reason for Change:

<input type="checkbox"/> Technical Requirement	<input type="checkbox"/> Product Transition
<input type="checkbox"/> Customer Requirement	<input checked="" type="checkbox"/> Product Discontinuation
<input type="checkbox"/> Quality Improvement	<input type="checkbox"/> Product Enhancement
<input type="checkbox"/> Change of Production Location	<input type="checkbox"/> Other (Brand Change)

Audience	All Digi RF Customers
Reason for change	<p>Digi is discontinuing the XBee USB Adapter ZB Pro US variant due to product line rationalization. This adapter is based on a legacy XBee S2B module which is minimally supported due to age of product. Additionally, some of the product's certifications have expired and were not renewed in anticipation of this EOL notice.</p> <p>The recently introduced XBee 3 USB Adapter is the recommended replacement device.</p> <p>The XBee 3 USB Adapter uses a dongle form-factor that shares USB Type A connector and can easily interface with applications using our Digi XBee Software. The principle difference between the XBee USB Adapter ZB PRO and the XBee 3 USB Adapter is wireless range which can be seen on the datasheets listed below:</p> <p>XBee USB Adapter ZB PRO US Datasheet: link XBee 3 USB Adapter Datasheet: link</p> <p>We recommend customers evaluate the XBee 3 USB Adapter specifications and product performance in their application to assess whether it is a suitable migration option.</p> <p>If any questions arise, please contact Digi Technical Support.</p>
