LCM Series Aesthetic Update

To: Emerson Network Power KA&D Customer Base
From: Chris Jones
Subject: LCM Series Aesthetic "Look and Feel" update
Date: 30 Sept 2013

Starting October 1, 2013, the popular LCM series will begin its transformation over to the Emerson Embedded Power standard Aesthetics and Performance Platform. This new platform "Look and Feel" will consist of the following enhancements:

1. Change base & cover to SPCC Nickel Plate
2. Add Contrasting Black cover label
3. Output Bus Bar terminal to M4
4. Add Output Connector housing and cover on LCM300/600
5. Remove Fan Cut-out on LCM600/1500
6. Remove Bottom Fan Cut-out on LCM300
7. Increase Height dimension on LCM600/1500 by 1mm
8. Change fan cut-out to low noise Grill type

LCM600

LCM300

LCM1500

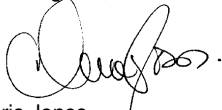

The change implementation details are as follows

All LCM300 and LCM1500 Models	No change in model numbers since these are just now releasing to Mass Production. Note DVT and Pilot builds may have old aesthetics.
All LCM600 Low Noise Models (-N suffix)	No change in model numbers since these are just now releasing to Mass Production. Note DVT and Pilot builds may have old aesthetics.
All LCM600 Modified Models (-4XX suffix)	No changes in model numbers since these are customer specific models. If customer wants new aesthetics, ECO can be processed for update
All LCM600 Standard Models (not Low Noise)	Model number will change by adding a "-A" suffix. For example LCM600Q-T-4 will become LCM600Q-T-4-A

Please feel free to contact me directly if you have any questions or concerns.
