

PRODUCT CHANGE NOTIFICATION

Date Issued: June 16, 2016

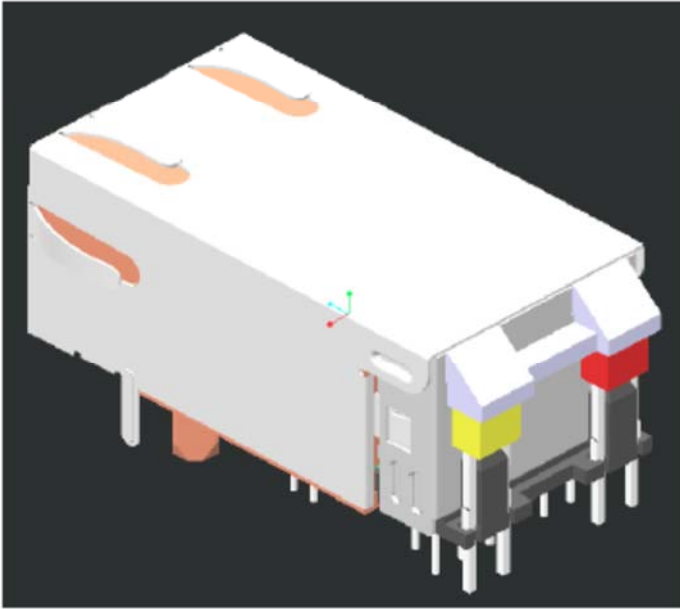

Product Identification: 0826 1x1 ICM Product Family

PCN Number: PC2160135

Reason for Change (s): In an effort to continually improve our product, Bel is pleased to announce a simple update to the light-pipe of the ICM. In an effort to improve the light transmission properties of the ICM and prevent unwanted color bleed over from one side to the other, the rear bridge of the light-pipe is being removed. There is still a middle bridge to hold the 2 halves together and the internals of the plastic housing still support the light-pipe as it always did. These changes will not affect “form, fit, or function”, nor do they affect any other dimensions or electrical parameters of the part. No other changes to the above series are being implemented at this time.

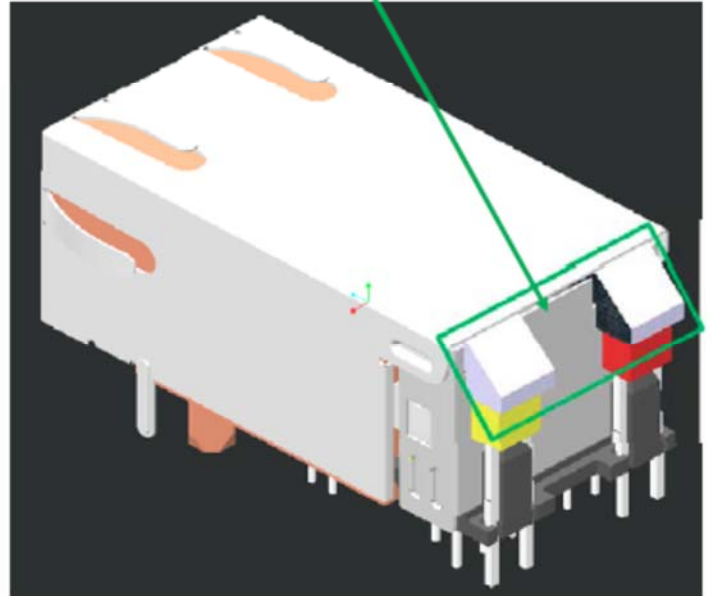

Description of the Change (s): Bel is updating the light-pipe design per the description below.

Was

Is

Remove the rear bridge of the exposed LP.

Planned Timing and Implementation of Change: This change will begin to be implemented on all shipments starting on July 31, 2016 or later.

Impact on Quality and Reliability: None.

Availability of Qualification Data: None.

Remarks: None.

Signature: John Hess, ICM Product Manager
