

Foam Arrow Tip Swab Product# 2309

Product Description

All foam swabs are manufactured with 100 pores per inch reticulated polyurethane foam, which ensures excellent absorbency while minimizing contamination. Tips are affixed by heat seal to prevent tip loss, even while saturated with solvent. Flexible tips provide versatility and softer touch, while rigid heads allow for more aggressive cleaning. 2309 swab has a high precision arrow tip, for fine cleaning and coating / adhesive application. The tip is flexible for a softer touch.

Features / Benefits

- Reticulated polyurethane foam
- Head thermally bonded
- High absorbency
- Low particulate count
- Flexible tip for softer touch

Environmental Policy

Techspray® is committed to developing products to ensure a safer and cleaner environment. We will continue to meet and sustain the regulations of all federal, state and local government agencies.
