1. Introduction

Over their lifetime, Skywire modems may incur several updates. These announcements are derived from communication from the module manufacturers, cellular carriers, and other related agencies relevant to the modem capabilities and technology. This PCN focuses on the EOL announcement from Telit on the LE910-SVG and LE910-NAG modules.

The Skywire modems listed in the table below are moving to Not Recommended for New Design, NRND, and will also be orderable only as Non-Cancelable, Non-Returnable, NCNR parts effective 06/07/2019. The End of Life (EOL) and the Last Time Ship Date are effective 10/31/2020.

Affected Part Numbers	Recommended Replacement
NL-SW-LTE-TSVG NL-SW-LTE-TSVG-B	NL-SW-LTE-TC4NAG
NL-SW-LTE-TNAG NL-SW-LTE-TNAG-B	NL-SW-LTE-TC4NAG

2. Migration Overview

NimbeLink recommends the NL-SW-LTE-TC4NAG modem as the replacement for the NL-SW-LTE-TSVG-x and NL-SW-LTE-TNAG-x modems. The NL-SW-LTE-TC4NAG is a 4G LTE Category 4 device supporting both Verizon and AT&T in a single product. Replacing the EOL CAT 3 modems will require reviewing and updating the AT commands within your device design.

Advantages include:

- Pin compatible package for seamless hardware integration
- Same AT commands
- Single product for both Verizon, AT&T and T-Mobile for USA
- Dual SIM architecture
- GNSS
- Expanded bands
 - B2, B4, B5, B12, B13, B14, B66, B71
 - Lower price compared with the current CAT 3 Modems

Look for the application note on the NimbeLink website for a more detailed migration overview: <https://nimbelink.com/embedded-modems/>

3. Last Time Buy Date

NL-SW-LTE-TSVG-x and NL-SW-LTE-TNAG-x modems are Not Recommended for New Designs effective 06/07/2019.

All new orders are non-cancellable, non-returnable, and not-reschedulable.

Last time orders must be placed by 10/15/2019.

4. Last Time Ship Date

All shipments must be scheduled before 10/31/2020.
