

Battery Holders – AA Type

One (1) AA Cell

Features

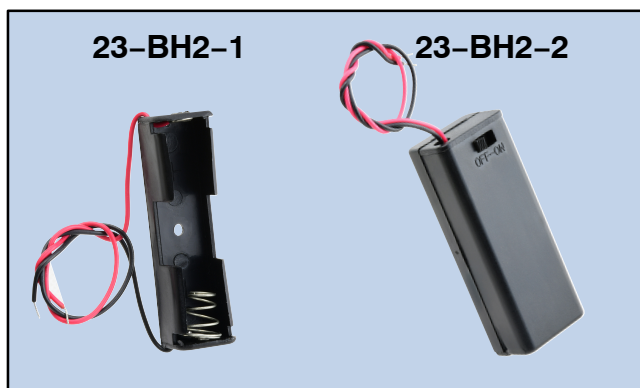

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH2-1	Battery Holder with 150mm (5.9") Wires	2.256 (57.3) x .642 (16.3) x .055 (1.4)
23-BH2-2	Battery Holder with 150mm (5.9") Wires, Cover, and ON-OFF Switch	2.638 (67.0) x 1.016 (25.8) x .707 (18.0)

Two (2) AA Cells – In Series

Features

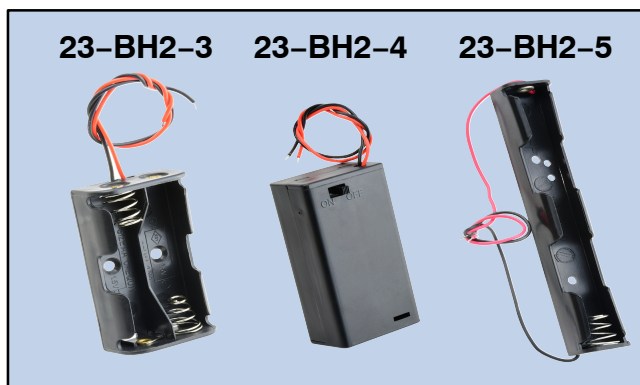

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH2-3	Battery Holder, Side-by-Side, with 150mm (5.9") Wires	2.244 (57.0) x 1.268 (32.2) x .602 (15.3)
23-BH2-4	Battery Holder, Side-by-Side, with 150mm (5.9") Wires, Cover, and ON-OFF Switch	2.700 (68.6) x 1.361 (34.6) x .756 (19.2)
23-BH2-5	Battery Holder, In-Line, with 150mm (5.9") Wires	4.262 (108.3) x .677 (17.2) x .550 (14.0)

Battery Holders – AA Type

Three (3) AA Cells – In Series

Features

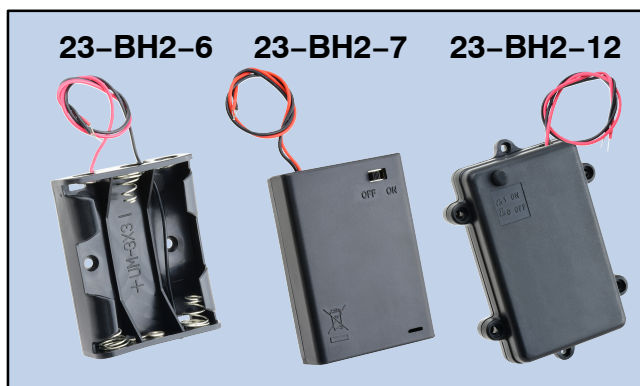

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration
- Water Resistant Type Available (23-BH2-12)

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH2-6	Battery Holder, Side-by-Side, with 150mm (5.9") Wires	2.326 (59.1) x 1.869 (47.5) x .622 (15.8)
23-BH2-7	Battery Holder, Side-by-Side, with 150mm (5.9") Wires, Cover, and ON-OFF Switch	2.685 (68.2) x 1.878 (47.7) x .724 (18.4)
23-BH2-12	Battery Holder, Side-by-Side, Water Resistant, with 150mm (5.9") Wires, Cover, and ON-OFF Switch	3.200 (81.3) x 2.000 (50.8) x .825 (21.0)

Four (4) AA Cells – In Series

Features

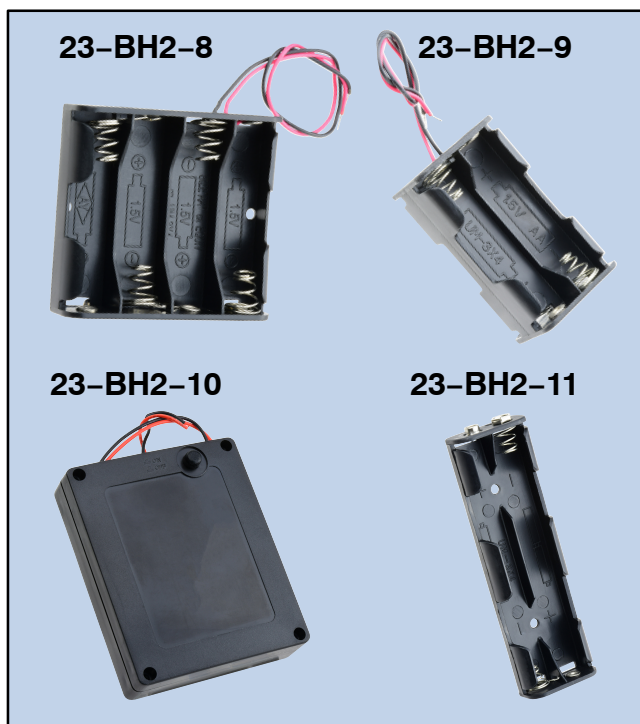

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH2-8	Battery Holder, 4 on One Side, with 150mm (5.9") Wires	2.356 (57.3) x 2.465 (62.6) x .622 (15.8)
23-BH2-9	Battery Holder, 2 on Each Side, with 150mm (5.9") Wires	2.276 (57.8) x 1.236 (31.4) x 1.106 (28.1)
23-BH2-10	Battery Holder, 4 on One Side, with 150mm (5.9") Wires, Cover, and ON-OFF Switch	2.767 (70.3) x 2.537 (64.5) x .772 (19.6)
23-BH2-11	Battery Holder, 4 on One Side, with 9V Snap-On Connection	4.185 (106.3) x 1.260 (32.0) x .600 (15.3)
