

To whom it may concern,

This letter is to inform you APEM, Inc. plans to immediately execute an EOL (end of life) to the UL versions of the parts listed below.

After a thorough review we have made the determination to discontinue these versions and will continue to build the non-UL equivalent. The manufacturing process will not change from the UL to the non-UL versions, the only difference being non-UL versions will not have the UL marking.

We appreciate your understanding and apologize for any inconvenience this may cause you and your business. Please contact your APEM representative with any questions or concerns regarding this matter.
