Worldwide Product Announcement

QuickCarrier® USB-D
USB Cellular Modem

New HSPA+ Ordering Part Number

Date: July 1, 2015

I. Summary

The QuickCarrier® USB-D USB cellular modems are an integral part of MultiTech's comprehensive portfolio of cellular connectivity products optimized for M2M (machine-to-machine) communications.

The QuickCarrier USB-D (model MTD-H5-2.0) is a new revision of our MTD-H5 model that includes a streamlined cable that is more flexible resulting in simpler installations and is more visually appealing. There has been no radio or electrical modifications, so it is fully compatible with existing MTD-H5 installations.

The device is fully-certified and approved for carrier use and connects within a few moments of being inserted into the host USB. The internal antenna further reduces the complexities and cost, enabling customers to get to market extremely fast and start obtaining the benefits of M2M.

The QuickCarrier USB-D cellular modems offer a common platform design approach across all major cellular technologies and a long and stable lifecycle, all important considerations for M2M applications.

For more detailed information or list of device specifications, please refer to www.multitech.com or contact your MultiTech sales representative.

Contents:

III. New Ordering Part Number

Ordering Part Number	Description
MTD-H5-2.0	HSPA+ USB Cellular Modem

MTD-H5-2.0 is an encryption items. U.S. Export Administration Regulations have special restrictions on the export of encryption items; please refer to these regulations. Any export of commodities, technology, or software must be exported from the United States in accordance with the Export Administration Regulations. Export or diversion contrary to U.S. law is prohibited.

Product specifications are subject to change without notice.

IV. Service and Support
Two Year Product Warranty
All Multi-Tech products include a two-year warranty that includes on-line technical support, 24-hour website support and FTP support.

Extended Warranty Services
To give your customers peace-of-mind and protect their investment, our Extended Warranty Service Plans ensure Multi-Tech products are covered for one-, two-, or three-years beyond the two-year manufacturer's warranty.

For a complete list of extended warranty part numbers, descriptions, and prices, please consult the pricing addendum.

V. Existing Inventory
Existing inventory of the MTD-H5 model is about to be depleted, and the new MTD-H5-2.0 ordering part number is now released. As we sell-through the inventory of the existing MTD-H5 model, we will begin transitioning to the new model. This strategy eliminates the need for stock rotation and eliminates the possibility of excess inventory of the existing QuickCarrier USB-D MTD-H5 ordering part number.

VI. Suggested Action Plan
To help facilitate the transition to the new QuickCarrier USB-D MTD-H5-2.0 part numbers, we recommend the following actions be taken:
- Continue to accept orders for the existing QuickCarrier USB-D MTD-H5 part number until your inventory is depleted.
- Transition stocking orders to the new QuickCarrier USB-D MTD-H5-2.0 part number.
- Forward this announcement to others within your organization who are actively involved in the sale or support of cellular modems.
- Ensure that the new model and pricing for the new QuickCarrier USB-D (model MTD-H5-2.0) cellular modem is loaded in your system.
- Begin to notify your customers of this change in ordering part numbers as the new MTD-H5-2.0 models are available.
