

## Customer Information Notification

201408005I

**Issue Date:** 13-Aug-2014

**Effective Date:** 15-Aug-2014

Here's your personalized quality information concerning products Digi-Key purchased from NXP. For detailed information we invite you to view this notification online

# QUALITY

### Management Summary

As from August 15, 2014, new product classifications in the Harmonized System (HS) shall be implemented and used by NXP, which becomes visible on the goods accompanying documents, like invoices, etc.

## Harmonized System Number Change

### Information Notification

#### 1. Introduction

NXP Semiconductors Netherlands has been subject to investigations by several customs authorities, challenging our product classifications in the Harmonized System (HS). The Harmonized System ensures that the correct import duties are levied. Therefore NXP decided to apply for Classification Rulings in the Netherlands ("Binding Tariff Information"), covering the full portfolio of the Business Line Sensors, leading to the below mentioned classification rulings (7 pcs). Those rulings are legally binding for NXP to apply in the European Union. However to avoid data inconsistency, the new HS codes are connected to the products and embedded in NXPs master data.

#### 2. The rulings

Please see attached file for details.

#### 3. Changed HS codes and descriptions

As from August 15, 2014, these new HS codes and descriptions shall be implemented and used by NXP, which becomes visible on the goods accompanying documents, like invoices, etc. At the same time this means that old HS codes like HS 8541 and other descriptions like Sensor Element, Magnetic Field Sensor, Speed Sensor, etc. will not be used anymore.

#### 4. Contact

In case of need for further information or support, please contact your Customs Compliance Department or address your requests to NXP.

### Why do we issue this Information Notification

New customs authorities requirements.

### Identification of Affected Products

Product identification does not change

### Impact

no impact to the product's functionality anticipated.

### Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

**Name** Guenter Reiniger  
**Position** Marketing Manager BL Sensors
